GREEN CAMPUS INITIATIVES

Arihant college Bavdhan endeavors to achieve a human – environment co-existence model which would promote society’s welfare through environmental protection. The policy visualizes setting a national benchmark for a socially and environmentally sustainable campus, through action plans for environmental education, management and conservation.

The institutional initiatives for greening the campus are as follows

- Pedestrian Friendly pathways
- Ban on use of Plastic
- Landscaping with trees and plants

PEDESTRIAN FRIENDLY PATHWAYS

In the Campus students and staff experience comfort walking through the pedestrian friendly pathways.

Ban on use of Plastic

Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. To restrict the use of plastic, measures have been taken to replace such as the staff and students are informed to use steel or copper water bottles instead of plastic bottles.

Landscaping with trees and plants

Our College has been landscaped with trees and plants. For promoting Tree Plantation College celebrates their Employee’s Birthday by gifting them saplings.
